[1. 001: Open Design Tools for Speech Signal Processing \(R43/R44\)](#)

Release Date: 09-01-2015Open Date: 09-01-2015Due Date: 10-01-2015Close Date: 10-01-2015

Purpose This Funding Opportunity Announcement (FOA) seeks applications to design, test, and disseminate acoustic signal processing tools that have the potential to accelerate research studies and facilitate translation of novel algorithms into use with hearing aids, cochlear implants, personal sound processors, and consumer electronic devices. Background Open hardware and software designs that are ...

[2. RFA-HD-16-006 : Tools for Assessment and Improvement of Neurologic Outcomes \(R41/R42\)](#)

Release Date: 08-12-2015Open Date: 11-10-2015Due Date: 12-10-2015Close Date: 12-10-2015

Background Improving pregnancy outcome is a prime mission for Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD). Neonatal neurologic disease contributes a significant burden to patients, their families and society. Neonatal encephalopathy (NE) affects up to 3.3/1000 term and late preterm infants in the developed world. Hypoxic ischemic encephalopathy (HIE), a ...

[4. 001: Small Business Innovation Research \(SBIR\) to Develop New Methods and Technologies for Assessment of Risk and for Early Diagnosis and Prognosis of Type 1 Diabetes \(T1D\) \(R43/R44\)](#)

Release Date: 07-28-2015 Open Date: 10-18-2015 Due Date: 11-18-2015 Close Date: 11-18-2015

Early identification of T1D risk and the onset of autoimmunity provide the basis for a variety of major ongoing studies seeking to prevent or delay the disease. Already, research on the natural history of the development of T1D in at-risk neonates has shown that early identification of those at risk can foster early diagnosis of T1D and avoid life-threatening diabetic ketoacidosis (DKA).&nbs ...

[5. 001: Small Business Innovation Research \(SBIR\) to Develop New or Improved Closed Loop Automated Technologies for Diabetes Therapy and Monitoring \(R43/R44\)](#)

Release Date: 07-24-2015 Open Date: 10-18-2015 Due Date: 11-18-2015 Close Date: 11-18-2015

Type 1 diabetes (T1D) results from the autoimmune destruction of the insulin-producing cells of the pancreatic islets of Langerhans and affects more than one million Americans, usually with onset in childhood or young adulthood. The disease markedly impairs quality of life and shortens lifespan primarily through premature mortality. T1D is associated with numerous complications including bli ...

[6. CDC/NCIRD 032: Thermostable Dry Powder Live Attenuated Influenza Vaccine for Nasal Delivery](#)

Release Date: 07-24-2015 Open Date: 07-24-2015 Due Date: 10-16-2015 Close Date: 10-16-2015

Background Ongoing disease and death associated with seasonal influenza and the threat of an influenza pandemic are two of the highest priority issues for global public health. Vaccination is a powerful tool for preventing influenza, however, current vaccines have

several limitations. Inactivated influenza vaccines (IIV) given by needle injection require skilled health care workers and can lead to ...

[7. NIH/NCI 341: Development of Metabolomics Data Integration Methods and Software](#)

Release Date: 07-24-2015 Open Date: 07-24-2015 Due Date: 10-16-2015 Close Date: 10-16-2015

Metabolomics is the study of small molecules participating in cellular metabolism. Advances in metabolic profiling technologies have made it possible to simultaneously assay hundreds of metabolites, providing insight into an organism's metabolic status.

[8. NIH/NCI 342: Validation of Mobile Technologies for Clinical Assessment, Monitoring & Intervention](#)

Release Date: 07-24-2015 Open Date: 07-24-2015 Due Date: 10-16-2015 Close Date: 10-16-2015

Mobile health technologies have grown exponentially in the past few years. The ubiquity of mobile phone use provides a platform for health assessment, monitoring and interventions previously unavailable to health research and clinical practice.

[9. NIH/NCI 343: An Electronic Platform for Cognitive Assessment in Cancer Patients](#)

Release Date: 07-24-2015 Open Date: 07-24-2015 Due Date: 10-16-2015 Close Date: 10-16-2015

Persistent cognitive deficits are a frequent complaint of the increasing population of cancer survivors, particularly those who have undergone chemotherapy.

[10. NIH/NCI 344: Technologies for Differential Isolation of Exosomes and Oncosomes](#)

Release Date: 07-24-2015 Open Date: 07-24-2015 Due Date: 10-16-2015 Close Date: 10-16-2015

Both normal and cancer tissues shed exosomes and other vesicles into body fluids. Tissue-shed exosomes are found in several body fluids including amniotic fluid, breast milk, bronchoalveolar fluid, cerebrospinal fluid, malignant ascites, plasma, saliva and urine.
